

## Product Model

PT6L2D

## Schematic

## General Description

This TravLite flashlight is designed considering more terrible condition when you use it outdoors. The main body is covered with soft TPE sheath which makes the flashlight extra shock resistant and water resistant. At the same time, the soft sheath gives you more comfortable feeling.

## Mains Features

1. Specially soft TPE sheath give your more comfortable feeling.
2. Extra shock resistant, perfectly endure 2-meter-high drop action.
3. Extra water resistant, sheath helps it each to the IPX7 standard\*.

4. Super bright LEDs provide 3-8 times more energy savings and 10 times longer consecutive operating times compared to regular light bulbs.
5. Two D size batteries easily enable 300 hours continuous lighting\*
6. Quality LED enjoys lifetime of 100,000 hours.
7. D size batteries inexpensive and widely available.
8. Comes with lanyard.

*\* An IPX7 designation means the case can withstand accidental immersion in one meter of water for up to 30 minutes.*

*\* Camelion 2009 lab tests, using 2 Camelion alkaline D batteries; LED's brightness will attenuate when battery power is weak.*
